I confirm that the margarita machine(s) I received is/are in proper working condition as demonstrated to me by the South Bay Margarita's delivery personnel.

I also acknowledge that I have been informed of the phone number(s) I must call during the first TWO (2) HOURS of rental period if I have any questions about the operation of the equipment. Main office number is 310-756-0444. After hours you can contact the person on call at 818-903-1999.

I understand that any problem with equipment must be reported during RENTAL PERIOD. In addition, I confirm that I have been instructed to turn machine on 1 hour before the event; to make sure machine is switched to the ON position (to the left); that machine(s) are plugged into a 20 Amp 110 Volt Dedicated Circuit without any other appliances close by; and that I am to only use the extension cord provided by South Bay Margaritas. Lastly, I have been informed to turn the machine OFF when empty.

Expected attendance is \_\_\_\_\_. Number of machines recommended is \_\_\_\_\_. I hereby waive all rights of recourse if I have not rented the above-recommended number of machines for my expected number of guests.

Note: The renter and renter's party is responsible for theft and any damage (physical damage or mechanical damage caused by physical damage) while in your possession. All products provided by South Bay Margaritas are completely alcohol free and will not be responsible for accidents or injury resulting from the consumption of alcohol during or following the use of equipment or products provided by South Bay Margaritas.

I have read and I agree to the contract terms on the front and back of this invoice, which constitutes our entire agreement. There are no oral or other representations not included herein.

Signed

What's a 20 Amp 110 Volt Dedicated Circuit?

The electricity is the most important variable that the client supplies, "110 Volt" refer to the electricity in standard outlets. "20 Amp" refers to the size of the breaker that turns the outlet on and off at your breaker box. Breakers are individually labeled with their amperage. A 15 Amp breaker will not be sufficient. "Dedicated Circuit" means that there are NOT other large electrical appliances or heavy amperage draw items (microwave, air conditioner, refrigerator etc.) on the same breaker. These items take away electricity that the margarita machines need and could damage them, make them freeze slower, or not at all.
